Models	Angle	Features
SO-A-8007	7±3°	Snap-in mount with custom counterweight flag, digital or analog output, wire harness or a connector
SO-A-8009	7±3°	Compact, snap-in mount, with a custom spring loaded bi-directional flag, digital or analog output, wire harness or a connector
SO-A-8010	12±3°	Snap-in mount sensor with a low weight fast response spring loaded composite flag, digital or analog output
SO-A-8013	12±3°	Industry standard, snap-in mount, spring loaded flag, wires exit on the left or right, enhanced wire strain relief, analog or digital
SO-A-8014	12±3°	Compact, snap-in mount, large selection of spring loaded flags, connector options, analog or digital output
SO-A-8015	5±2°	Compact, snap-in mount, reverse mode spring loaded flag, connector options, analog or digital output
SO-A-8020	12±3°	Universal snap-in mounting, selectable wire exit side, spring loaded flag, analog or digital output
SO-A-8022	18±5°	Low profile, screw mount, choice of spring or counterweight flags, wire leads, analog or digital output
